# Tips & Tricks

Small measures with a big impact: how you can support efficient and clean waste disposal in Dübendorf.

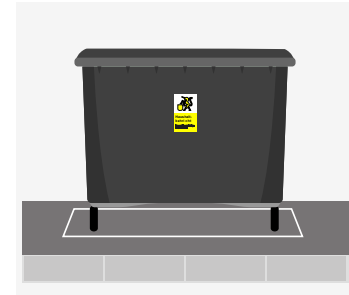

### Container requirement

Place rubbish in containers to keep it safe from animals.

### Plastic containers

Only use plastic containers – they make emptying easier and reduce noise.

### Container location

Place the container on the designated asphalted area without a kerb edge to the road.

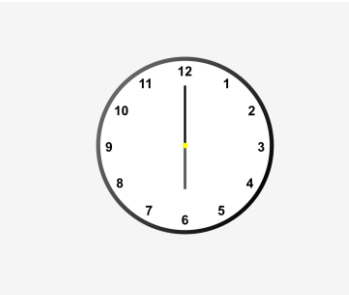

### Set out waste neatly and clearly

Place the rubbish neatly next to each other and do not place bags on top of the containers.

### Bundle correctly

Bundle cardboard and paper compactly to make disposal easier, especially in rainy weather.

### Observe the set-out times

Place the rubbish in the designated area in time so that it can be collected on the scheduled day.

# Shredding service

We carry out a shredding service every spring and autumn. Shredded tree and shrub cuttings are ideal for adding to compost or using as mulch in the garden.

We will chop your branches up to a diameter of 50 cm. There are no restrictions on length or weight. Please place your branches in an orderly and easily accessible manner at the designated location on the street from Tuesday at 7.00 during the relevant campaign week. The shredding service tour starts in Gfenn. Depending on the number of registrations, the service may last until Friday.

## Spring
